ROYAL 14FX CUSTOM

SPECIFICATION

Work width x height	350 x 240 mm
Feed motor	3.7 KW
Front knife size	500 x 66 x 9 mm
Net weight	640 Kg

FEATURE

- The ROYAL 14FX, an open side type surfer, is capable of working wider workpiece up to 350 mm.
- The turntable permits the bias angle to vary from 0° to 60° according to the workpiece.

ROYAL 18FX CUSTOM

SPECIFICATION

Work width x height	450 x 240 mm
Feed motor	5.5 KW
Front knife size	640 x 66 x 9.5 mm
Net weight	1,140 Kg

FEATURE

- To strengthen the workpiece feeding capacity, the ROYAL 18FX has an enlarged body of heavy-duty construction.
- With the workpiece feed area so expanded, the ROYAL 18FX is capable of cutting a 450 mm wide work at the maximum with stability.

ULTRA WII CUSTOM

SPECIFICATION

Work width x height	250 x 180 mm
Feed motor	2.2 KW x 2
Front knife size	335 x 66 x 8 mm
Net weight	1,090 Kg

FEATURE

- Top planing and bottom planing performed by one machine.
- Since two knives, one for rough planing and one for finish planing are set at both of the top and bottom, both sides can be planed with just one workpiece feed. Therefore, planing time can be shortened considerably. It can also be built into a line.
- Variable bias angle system permits to choose the optimum bias angle to obtain the best finishing for the workpiece according to its hardness and moisture content.
